

Jeffrey Woodruff
Pitkin County Commissioner Candidate for District 4
Snowmass and Snowmass Village, serving Pitkin County

I am a licensed Colorado Architect and have been living full-time in Old Snowmass for 10 years. Prior to moving here, I had helped grow software businesses around the world and worked as a financial services trader.

My Roaring Fork architecture projects achieve high levels of distinction for lowering home energy use. CORE has featured my projects including whole house electrification including solar, batteries and heat pumps in case studies and site visits. Personally, I removed the propane from my Old Snowmass house, I reduced my exterior and interior energy use and drive an electric vehicle; walking the walk.

I have been volunteering a significant amount of time for ten years, serving the State of Colorado and residents of our valley.

- I serve Pitkin County today, as a Planning and Zoning Commissioner (currently as Commissioner and two years as Board Chair), helping reach decisions impacting our neighbors- from community wide solar projects to essential worker housing.

- I have also served at the even more localized community level, with the Snowmass Capitol Creek Caucus, drafting and implementing our plan for our community.

- I have been appointed to the State Wildfire Resiliency board by the American Institute of Architects and the Colorado Department of Public Safety. The board is focused on statewide code to help improve home hardening (in order to protect lives and structures, we need to build fire wise homes and parcels) and improve communities resiliency (how can we provide safe ingress and egress, to first responders and ourselves and neighbors) against wildfire.

- I spent a decade prior serving Front Range causes from youth operated urban organic farming to music and contemporary art programs.

I am uniquely qualified to serve as your Pitkin County Commissioner. Environmentally sensitive in my own life and architectural practice; we can preserve community character and achieve responsible economic growth. I am an informed, rational decision maker, diligently working through board packets and attending site visits. In my various board roles, I have communicated and worked regularly with staff and constituents to help shape plans and resolutions (recording the terms of our agreements), and provide strong leadership to citizen committees and county and state boards.
